

CENTRE FOR ACCOUNTING AND INDUSTRY PARTNERSHIPS

WELCOME

Tonight, Wednesday 18th March, 2015, we honour some of Australia's most distinguished accounting practitioners and academics who have been adjudged to have made a significant contribution to accounting in Australia, past or present.

Each of the inductees exemplify the profound wealth of accounting expertise that exists in Australia. These individuals have shaped, and continue to shape, the profession with their remarkable achievements inspiring generations of like-minded accounting practitioners and academics.

Brad Potter

Stewart Leech

Carlin Dowling

Directors, Centre for Accounting & Industry Partnerships

MAJOR SPONSORS

The Centre for Accounting & Industry Partnerships extends its warmest appreciation and thanks to the major sponsors of the 2015 Australian Accounting Hall of Fame Dinner and Awards Ceremony for their support and assistance.

CHARTERED ACCOUNTANTS
AUSTRALIA + NEW ZEALAND

Chartered Accountants Australia and New Zealand is made up of over 100,000 diverse, talented and financially astute professionals who utilise their skills every day to make a difference for businesses the world over.

Members of Chartered Accountants Australia and New Zealand are known for professional integrity, principled judgment and financial discipline, and a forward-looking approach to business.

We focus on the education and lifelong learning of members, and engage in advocacy and thought leadership in areas that impact the economy and domestic and international capital markets.

We are represented on the Board of the International Federation of Accountants, and are connected globally through the 800,000-strong Global Accounting Alliance, and Chartered Accountants Worldwide, which brings together leading Institutes in Australia, England and Wales, Ireland, New Zealand, Scotland and South Africa to support and promote over 320,000 Chartered Accountants in more than 180 countries.

CPA Australia is one of the world's largest accounting bodies, with more than 150,000 members across 121 countries. Our core services to members include education, training, knowledge exchange, technical support, networking and advocacy. We actively embark on major initiatives to proactively lead and influence the direction of meaningful reform in Australia and overseas. Our emphasis on encouraging strong leadership across governments, regulators, businesses and education is shown by our actions and reflected in our membership demographics. Collectively, around 17 per cent of our members now hold senior leadership roles, including more than 21,000 members at CEO or CFO level, or in business ownership roles.

Our sphere of operations has grown to cover 19 staffed offices in all states and territories of Australia as well as China (including Hong Kong), Singapore, Malaysia, Indonesia, Vietnam, New Zealand and the UK.

AUSTRALIAN ACCOUNTING HALL OF FAME

HISTORY

Accounting in Australia has a long and distinguished heritage. Organised accounting dates from the late 19th century and the mid-20th century is often seen as the golden age of the profession as it commenced a maturing process that arguably continues to this day.

Throughout this long and distinguished history there have been many individuals whose achievements have been significant and whose impact on the development of the discipline has been profound. The Australian Accounting Hall of Fame seeks to pay tribute to those considered to be pre-eminent within the discipline.

ESTABLISHMENT

The Department of Accounting in the University of Melbourne established the Australian Accounting Hall of Fame. The affairs of the Hall of Fame are managed by the Centre for Accounting and Industry Partnerships within the Department.

MISSION

The Australian Accounting Hall of Fame honours and celebrates the most distinguished accounting practitioners and academics who have made a significant contribution to the advancement of accounting in Australia, past or present.

SELECTION COMMITTEE

The Australian Accounting Hall of Fame selection committee is an independent committee which consists of some of the most influential and respected accountants from academia, accounting practice, government and business from around Australia.

Their task is to elect the most distinguished accounting practitioners and academics who are considered to have made a significant contribution to the advancement of accounting in Australia.

AUSTRALIAN ACCOUNTING HALL OF FAME

2015 INDUCTEES

SIR RONALD IRISH OBE

(1913-1993)

In his historical account of the first 50 years of The Institute of Chartered Accountants in Australia (ICAA), A.W. Graham characterises Sir Ronald Irish in the following terms:

The late 1950s saw New South Wales contribute a leader who is probably the best known of all presidents throughout the first 50 years.

Graham (1978)

CITATION READ BY Graeme Dean

Emeritus Professor
The University of Sydney

NOMINATION PREPARED BY Murray Wells

Emeritus Professor
The University of Sydney

Similarly, when he died in 1993, Sir Ronald Irish was described in the *Sydney Morning Herald* as a "Leading figure in the world of accounting." Irish was born on March 26, 1913. He attended the elite Fort Street High School, trained in the offices of A.S. White and Fox initially and then with C.W. Stirling & Co., before qualifying as a chartered accountant in 1934. He was admitted into membership of the ICAA in 1934. In the same year he founded the eponymous firm of R.A. Irish which later became Irish and Michelmores developing into the national firm of Irish Young and Outhwaite. He was National Chairman of the firm until he retired in 1980. The firm later merged into the Australian arm of Deloitte Touche Tohmatsu, now Deloitte Australia.

Irish's influence on the development of the ICAA was profound. As the then President of the Institute he is credited with achieving the breakthrough in dealings with the British Government which led to the Clerk of the Privy Council accepting the submission of the Institute leading to the grant of the second Supplemental Royal Charter by the Queen in 1959. This provided for a number of changes to membership and allowed the use of the designatory letters FCA and ACA alone without the requirement to attach the word Australia. This has only changed as a consequence of the recent merger of the ICAA and the New Zealand Institute of Chartered Accountants.

During his time on the Council of the ICAA, Irish was the principal advocate for enhanced educational requirements for members and for high quality technical standards. Sir Ronald was also a leading advocate for the development of a central library to replace the rather modest State libraries that existed up to that time and of a research department within the ICAA to assist in the development of technical standards. He was one of the principal advocates for taxation reform – serving on the Special Taxation Committee throughout the 1950s and 1960s. The Committee made many submissions to the Treasurer of the day on taxation matters.

Irish was prominent within the Australian business community. He was instrumental in establishing Rothmans of Pall Mall (Australia) Ltd and was subsequently appointed Chairman. He was also chairman of Swift and Co., Anthony Horden, CIG, Wood Hall Ltd., Mirror Newspapers and Deputy Chairman of Ampol Petroleum, all of which were major public companies at the time. He served on the Boards of a number of other public companies and government boards. At the federal government level he chaired the Manufacturing Industries Advisory Council, which reported to the then Prime Minister, Sir Robert Menzies and the Minister responsible, Sir John McEwen.

Sir Ronald served the accounting profession with distinction. In 1947 he delivered the Annual Research Lecture at The University of Melbourne, then sponsored by the Commonwealth Institute of Accountants, with the

“Irish’s influence on the development of the ICAA was profound. As the then President of the Institute he is credited with achieving the breakthrough in dealings with the British Government which led to the Clerk of the Privy Council accepting the submission of the Institute leading to the grant of the second Supplemental Royal Charter by the Queen in 1959.”

prescient title of the presentation being “Evolution of Corporate Accounting”. He was President of the ICAA from 1956 to 1958 and, importantly, was President of the World Congress of Accountants when it was held in Sydney in 1972 – a measure of the esteem in which he was held. It is clear from correspondence of the time, that he played an active role in setting the program for that Congress.

Sir Ronald wrote a series of influential text books on Auditing between 1935 and 1972. In 1935 at the precocious age of 22 and just as he was establishing his own firm he penned the principal book titled *Practical auditing: a concise treatise, designed for examination requirements and to assist the practitioner accountant* in 1935. It became *Auditing: a comprehensive treatise on modern auditing practice and allied subjects; including internal control; investigations; valuations and interpretation of financial statements for the professional accountant and student* in 1957 and in 1972 the title was simplified to *Auditing*. It was widely recognised and in the *Obituary* published in the *Sydney Morning Herald* was noted as “the accepted textbook on auditing” – high praise indeed.

Irish maintained an interest in the education of accountants throughout his life. He was an early advocate of a university-based program for those seeking entry to the profession, expressing the hope that, “perhaps the time is not far distant when the academic training for our profession will become wholly a university function” (Letter to Chambers, 29 September 1958). He founded the York Accountancy College in Sydney and corresponded frequently with academics on points of principle and to ensure that, at all times, his text book reflected current thinking and was relevant to the practitioners of the day. He was recognised internationally, and in 1970 The Society of Industrial Accountants of Canada expressed interest in inviting him to deliver a series of lectures in Canada.

Irish was an early member of the discussion group the Pacioli Society founded by Ray Chambers [AAHoF 2010]. During 1986, on Chambers’ recommendation, the Senate of The University of Sydney conferred on him the title “Honorary Fellow” in a ceremony in the

University’s Great Hall, in recognition of his contribution to education and the accounting profession. In further recognition of his outstanding contribution, both the ICAA and the Australian Society of Accountants accorded him the rare honour of electing him to Life Membership.

He was made an Officer of the Order of the British Empire in 1963 and was further recognised by the award of Knight Bachelor in 1970 in recognition of his services to commerce and industry. On both occasions the honour was bestowed personally by Her Majesty, Queen Elizabeth II.

As Graham concludes “Sir Ronald has been truly a leader of the profession in every sense.”

JEFFREY LUCY AM

Australia's decision to adopt International Financial Reporting Standards (IFRS) changed forever Australian accounting. That decision, led by Jeffrey Lucy, then Chairman of the Financial Reporting Council (FRC) to push ahead demonstrated a commitment to global accounting standards and financial reporting, an understanding of the importance of being a first mover, a vision for the role Australian accountants could play on the global stage and a desire to ensure that Australian companies were not disadvantaged when seeking capital offshore.

CITATION READ BY Judith Downes

Chairman
bankmecu

NOMINATION PREPARED BY Judith Downes

Chairman
bankmecu

Jeffrey Lucy's public-practice career was in Adelaide where he was a partner in the firm of Lucy Noske & Lewis in the late 1980s. The firm was absorbed into Coopers and Lybrand in the early 1990s and Jeffrey eventually became Managing Partner of PricewaterhouseCoopers Adelaide from 1999 to 2001. During this time, he was active in The Institute of Chartered Accountants in Australia (ICAA) as Chairman of the State Council, and also the South Australian Secretary for the Taxation Institute of Australia from 1983 to 1994. He was a member of the Joint Standing Committee of the ICAA / CPA Australia from 1992 to 1995. In 1994 Jeffrey had the honour of being named National President of the ICAA.

Life as a regulator started early with his appointment as a member of the SA Legal Practitioners Conduct Board from 1990 to 1999. He was appointed to the Business Regulation Advisory Group (BRAG) in 1997, and served there for four years. BRAG's mission was to advise government on amendments to the Corporations legislation as part of the Corporate Law Economic Reform Program. He was also a Board member of the Australian Crime Commission from 2003 to 2007. Contemporaneously he was a member of the FRC in 1999, and went on to chair the Council for two periods, from 2001 to 2003, and again from 2007 to 2011. During his term on the FRC he was also appointed to the Australian Securities and Investment Commission (ASIC) as Deputy Chairman from 2003 to 2004. He then served as Chairman from 2004 to 2007 and as Commissioner during 2007. Jeffrey is the only accountant who has held the position of Chairman of ASIC.

"The verdict from business on Lucy is mostly that he has run a quietly effective regulator", wrote *The Australian Financial Review* on his retirement as Chairman of ASIC. In Jeffrey's own words, he tried to "expand in the area of real-time regulation and influencing behaviour, as distinct from enforcing outcomes".

Specific events during Jeffrey's time at ASIC, as noted in the annual reports, included:

- Convictions of former directors and executives of HIH
- Convictions of NAB currency traders
- Civil penalty proceedings against Stephen Vizard
- Matters involving Westpoint, James Hardie, One.Tel, Offset Alpine Printing, Sons of Gwalia and Project Wickenby
- CLERP 9, aimed at strengthening public confidence in corporate disclosure and audit
- New Memoranda of Understanding with ASX Ltd, the Australian Crime Commission, Australian Prudential Reporting Authority (APRA) and the FRC
- Worked with APRA to encourage high standards by super fund trustees, and with the Australian Tax Office to shut down and deter illegal schemes in superannuation

“The verdict from business on Lucy is mostly that he has run a quietly effective regulator”, wrote *The Australian Financial Review* on his retirement as Chairman of ASIC. In Jeffrey’s own words, he tried to “expand in the area of real-time regulation and influencing behaviour, as distinct from enforcing outcomes”.

- After reviewing financial planning files, accepted a legally binding commitment from AMP Financial Planning to modify key aspects of how it advises its customers
- Established structures within ASIC to undertake new responsibilities of regulatory oversight of the auditing profession
- Established formal links between representatives of ASIC, the major accounting firms and the accounting profession generally
- Set up a Business Consultative Panel to ASIC

During his time as Chairman of the FRC, and his tenure at ASIC, Jeffrey was acutely aware of the importance of keeping Australia at the forefront of global developments. As Chairman of the FRC, he was uniquely positioned to consider the merits of Australia’s proposed adoption of IFRS. In 2002 there was growing support for the development of international standards, and the Australian Accounting Standards Board was developing Australian accounting standards that largely harmonised with international standards. The FRC’s functions included oversight of the processes for setting accounting standards in Australia, and in July 2002, the FRC under the Chairmanship of Jeffrey Lucy formalised its support for IFRS to be adopted for financial reporting in Australia by 1 January 2005. This most dramatic development in Australian accounting positioned Australia as a first adopter of IFRS, along with the European Union. The benefits of this foresight have been many. Stuart Wilson, CEO of the Australian Shareholders Association, wrote the following after the appointment of Ian Mackintosh as Deputy Chair of the International Accounting Standards Board: “By taking the bold step to move early, Australia found itself with a fair degree of ability to influence, guide and mould the standards, and FRC Chairman Jeffrey Lucy has been able to build relationships with those that matter in this field”. Further “... the FRC, through Lucy’s nous, were quick to realise that by creating a third leg to the Europe and US stool (an Asia-Oceania alliance), Australia would be able to impart its considerable experience. And an Australian in one of the most senior positions is a neat dividend.”

Following his time at the FRC and ASIC, Lucy continued his support and active involvement in international accounting standards with his appointment as a Trustee of the IFRS Foundation, serving two terms from 2008 to 2013. His passionate belief in international accounting standards saw further expression in his work in bringing together the Trustees of the Asia-Oceania region to support the formation of the Asian-Oceania Standard-Setters Group. At the opening of the first regional IFRS office in Tokyo in 2009, Michael Prada, Chairman of the Trustees, said “what started as a vision has become a reality through the hard work and determination of my fellow trustees from this region, led by Jeffrey Lucy, our trustee from Australia.” Yet again, Jeffrey had worked collegially and globally to bring about a milestone step forward in accounting, and in doing so, he further cemented Australia’s position as a leader in regional accounting.

Jeffrey’s international influence, and thereby the respect given to Australia accounting, went beyond IFRS. He was appointed the inaugural Chairman of the International Forum of Independent Audit Regulators in 2006, and Australia’s representative on the Executive and Technical Committees of the International Organization of Securities Commissions from 2003 to 2007. He was also a member of the Accounting Standards Review Board of New Zealand from 2007 to 2011.

Interestingly, Jeffrey Lucy was recognised early in his career as a serious contributor to his chosen profession. In 2001 he was appointed a Member of the Order of Australia for services to the accounting profession, particularly through the ICAA, and to the business sector as an advisor on corporate and taxation reform.

Past Chairman

Australian Accounting Standards Board

NOMINATION PREPARED BY

Cris Massis

General Manager, Victorian Division

CPA Australia

Elizabeth Alexander established herself as a leader within Australian accounting at an early stage in her career. As the first female partner of a Big 8 accounting firm, Price Waterhouse & Co., she was uniquely placed to promote the interests of women in the profession. She has worked continuously to empower women both within the accounting profession and the wider business community. Attaining professional success early in her career provided the opportunity to be engaged in the wider development of the profession over a sustained period of time. Elizabeth Alexander has used this time wisely and to great advantage. Through her drive and initiative she introduced risk management and corporate governance to her firm's portfolio of services. Part of her legacy is that these activities are now staple offerings of most large accounting firms. As a member of the Australian Accounting Standards Board she was well placed to contribute to shaping the accounting standards development and preparation process. As deputy chair of the Financial Reporting Council, Elizabeth also had a broad oversight of the accounting and auditing standard-setting process. As a member of the Takeovers Panel she has also been an active regulator. As a senior office holder with CPA Australia she was also actively involved in efforts to bring regulatory backing to accounting standards. Many awards have come Elizabeth's way including Life Membership of CPA Australia and being honoured as a Member of the Order of Australia.

The Australian Accounting Hall of Fame honours Elizabeth Alexander as a pioneer female practitioner, mentor, accounting and auditing standard-setter and regulator.

Philip R BROWN AM

2010

CITATION READ BY

Bryan Howieson

Associate Professor
The University of Adelaide

NOMINATION PREPARED BY

Neil Fargher

Professor
The Australian National University

Philip Brown holds an important and unique place within the annals of Australian accounting. As co-author of the research paper that redefined the course of academic accounting research in the last forty years he inadvertently set the research agendas and directions for a legion of academics that followed. The paper, titled *An Empirical Evaluation of Accounting Income Numbers* (1968), had such a profound impact on accounting research that the American Accounting Association, in 1986 selected it as the inaugural Seminal Contribution to the Accounting Literature. In making this award the association noted that 'no other paper has been cited as often or has played so important a role in the development of accounting research during the past thirty years'. The paper also earned, in 1996, the Outstanding Contribution to the Accounting Research Literature Award from the then Accounting Association of Australia and New Zealand. Inevitably this work placed Philip Brown at the forefront of the academic discipline and the accounting research activity that ensued. Building on the respect earned from this seminal work, he has used his reputation and profile for the advancement of accounting and management education in Australia ever since. As the inaugural foundation Director and Professor of Management at the Australian Graduate School of Management, he pioneered the introduction of world-class executive education in this country. An abiding commitment to a continuing research agenda and supervision of graduate students has kept him at the leading edge of accounting and accounting research globally. In recognition of his accomplishments, Philip Brown has been rewarded with a fellowship of the Academy of the Social Sciences in Australia. He is also a recipient of Life Membership of the Accounting and Finance Association of Australia and New Zealand and holds the title of Professor *Emeritus* at the University of Western Australia.

The Australian Accounting Hall of fame honours Philip Brown as an innovator, educator, mentor and scholar of the highest order.

Raymond J CHAMBERS AO

(1917-1999)

CITATION READ BY

Peter Wolnizer

Professor

The University of Sydney

NOMINATION PREPARED BY

Chris Poullaos

Associate Professor

The University of Sydney

Ray Chambers career as an academic accountant is characterised by a prodigious research output attuned to deeply held convictions as to what accounting was (is), what it should be and how it should be done. His writings are evidence of a lifetime of engagement on issues of great concern to him and for the accounting discipline. As a thinker of the first order he was able to articulate unflinchingly, his ideas. As a pioneer he called into question many of the precepts upon which the modern discipline had been founded. Early in his academic life his major work, *Accounting Evaluation and Economic Behavior* (1966), which had an inter-disciplinary dimension, set the theme for much of the work that followed. He authored eleven major books and produced over 230 articles during his career. He was an early proponent of fair values and was ever willing to pronounce on the difficulties associated with historical costs, often in the face of trenchant opposition. The depth of his scholarship expounded from within the 'Sydney School' of which he was the founder, has contributed mightily to the intellectual depth that the discipline enjoys today. As an educator, Ray Chambers is arguably without peer having taught and mentored at least eight professors of accounting together with a legion of others who have made their names in academia or the wider profession. Although a first-class scholar, Ray Chambers also recognised a duty to contribute, in a tangible way to the accounting profession. He did this through service as the national president of the then Australian Society of Accountants. He was also founder and foundation editor of the prestigious accounting research journal, *Abacus*. Ray Chambers status was recognised early with membership of the Social Science Research Council, the forerunner to the present day Academy of the Social Sciences in Australia. He is also the sole Australian to be honoured with membership of the Ohio Accounting Hall of Fame. His contribution to accounting in Australia brought additional recognition with his appointment as an Officer of the Order of Australia.

The Australian Accounting Hall of Fame honours Ray Chambers as an educator, mentor, visionary, thinker and scholar of the highest order. In so doing it recognises his international stature in helping to put the Australian academy on the map and inspiring many - including his critics - to think for themselves.

*Retired Managing Partner
Arthur Young & Coy*

NOMINATION PREPARED BY

Geoffrey Burrows

*Associate Professor
The University of Melbourne*

Sir Alexander FITZGERALD OBE

(1890 - 1969)

Alec Fitzgerald's place in the pantheon of Australian accounting is unique as his lifetime of work encompassed a broad range of activities. Not only was he a successful, big city, principal-in-private-practice but also an educator and scholar of great significance. A strong ethos of service meant he also made major contributions to government and public service in causes that targeted his exceptional accounting credentials. Alec Fitzgerald was a genuine all-rounder operating at the highest levels in professional accounting and academia. As a practitioner he started as a junior, eventually building a large, successful, city practice that is an important antecedent of the present-day Ernst & Young. The firm of Fitzgerald Gunn & Partners was highly regarded within the Australian business community. Alec Fitzgerald played a central role in the evolution of the firm. Along with his business success, his accomplishments in education set him apart from his peers. As a teacher and researcher, administrator and author, his contribution was immense and achievements without equal. As a part-time academic maintaining a busy practice, he administered, as head, an academic discipline that flourished under his guidance. He was appointed to the G.L. Wood Chair in Accounting in 1955. Not only was he an inspiring teacher and extremely capable administrator but also a prodigious author of accounting articles producing six books and writing over 250 articles and editorials. Additionally he was editor of the *Accountant in Australia* and *The Australian Accountant*. A man of immense capacity, Fitzgerald's contribution to government and public service is similarly daunting. Federal and state governments sought his counsel and utilised his expertise, on many occasions appointing him to committees and boards of enquiry. This aspect of his work commenced in 1937 with appointment as a Royal Commissioner into Water Supply in Victoria and came to a close in 1963 with appointment to the Federal government-appointed Inquiry into the Future of Tertiary Education in Australia. In the intervening years he was called to high level service on at least ten occasions. Of particular importance was his personal appointment, on the recommendation of the Prime Minister, to chair the Commonwealth Grants Commission, a role he fulfilled for fifteen years between 1945 and 1960, arguably his most senior public service role. Alec Fitzgerald also held the highest offices within the accounting profession eventually serving as national president of the then Commonwealth Institute of Accountants. A multitude of honours were bestowed on him over his lifetime. He was appointed an Officer of the Order of the British Empire in 1953 and was made Knight Bachelor in 1955. An endowed Chair in Accounting in the University of Melbourne bears his name.

The Australian Accounting Hall of Fame honours Sir Alexander Fitzgerald as a pioneer, practitioner, administrator, author, editor, educator, scholar, thinker and leader of the accounting profession. In so doing it recognises his extraordinarily broad contribution to the advancement of Australian accounting over more than half a century.

Reginald S GYNTHYER

(1921-1999)

2010

CITATION READ BY

Don Anderson

Professor

The University of Queensland

NOMINATION PREPARED BY

Ian Zimmer

Professor

The University of Queensland

Reg Gynther's contribution to accounting came in the aftermath of wartime service and several years in industry and commerce during which time he obtained several professional accounting qualifications. As a later entrant to academia he wasted no time acquiring the qualifications requisite for career progression. Such was his success that he achieved full professorship in the University of Queensland within eight years of receiving his first fulltime appointment. A career-defining book emerged from his masters thesis titled *Accounting for Price Level Changes: Theory and Procedures* (1966). The years following were characterised by a further distillation of his ideas that provided the basis for a long stream of research output that established his reputation internationally as an accounting scholar of considerable importance. In this work he, as a tireless advocate of Current Cost Accounting, expounded the theoretical and practical aspects of accounting for price changes. Paradoxically his doctoral work played little part in the pursuit of his research agenda. Between 1961 and 1967 he produced 27 major articles, attesting to his capacity as a first class thinker and scholar. Reg Gynther was not only a highly regarded scholar but also an innovative administrator. Through his efforts the accounting discipline was formally established within the University of Queensland, the staff base greatly expanded, a high quality honours program instituted and double degrees linking commerce to law introduced for the first time in an Australian university. Having established an international reputation in academia in a relatively short period, Reg Gynther retired from the university in 1977 and was conferred with the title of Professor *Emeritus*. He returned to the private sector taking a policy-related role as partner with the then Coopers & Lybrand. With responsibilities for research and professional development he was soon engaged in the debate on price level changes. During the inflation accounting debates of the 1970s and early 1980s he was the face of his firm speaking and writing extensively on the merits of current cost accounting. From 1977 to 1983 he was a member of the Accounting Standards Committee and played an active role in the preparation of the *Current Cost Accounting Working Guide*. He retired from Coopers & Lybrand in 1985.

The Australian Accounting Hall of Fame honours Reg Gynther as an innovator, educator, accounting standard-setter, scholar and thinker of the highest order.

Louis GOLDBERG AO

(1908-1997)

2011

CITATION READ BY

Stewart Leech

Professor

The University of Melbourne

NOMINATION PREPARED BY

Geoffrey Burrows

Associate Professor

The University of Melbourne

Louis (Lou) Goldberg's contribution to the development of accounting in Australia was extremely broad encompassing accounting research, accounting education, university administration, publication, higher-degree supervision, government service, service to professional bodies and collection of artefacts. His involvement extended for nearly seventy years. For much of this long period he was at the forefront of thinking and ideas formulation in the accounting discipline. As a prolific writer he was the first Australian accounting academic to appear in the international refereed literature with his *Funds Statement Reconsidered* which appeared in the top-ranked American Accounting Association journal *The Accounting Review*, October 1951. This was a prelude to a series of articles that subsequently appeared in the journal. Through these writings he established his international reputation. His most prestigious work *An Inquiry into the Nature of Accounting* (1965) contained a critical examination of extant accounting theory, proposed a 'commander' theory of his own together with a pioneering examination of the role of communication in accounting. Published posthumously in 2001 his remarkable *A Journey into Accounting Thought* was to some extent a revised version of his *Inquiry* (1965) containing his final thoughts on the role and future of accounting but with a greater emphasis on the balance sheet. With almost 120 sole- and jointly -authored publications and research lectures, Goldberg justified his appointment as the first full-time lecturer in accounting at an Australian university later being appointed to the G.L. Wood Chair in Accounting. In the broader field of accounting education he played an instrumental role in the creation of what is now the Accounting and Finance Association of Australia and New Zealand the umbrella body for university teachers of accounting, finance and cognate disciplines in Australia and New Zealand. To the accounting profession more generally he was an active office holder in the then Australian Society of Accountants. Lou Goldberg was an outstanding Australian accounting educator, theorist and historian whose devotion to his work continued right up to his death. It is a tribute to his scholarly longevity that many of his works and activities were published or occurred after his official retirement in 1973. Honours aplenty came his way. The University of Melbourne bestowed upon him the degree of Doctor of Letters in 1967 in recognition of his substantial, sustained and original contributions to learning. The wider academy recognised his scholarship when he was elected a Fellow of the Academy of the Social Sciences in Australia. His country appointed him Officer of the Order of Australia in the General Division.

The Australian Accounting Hall of Fame honours Lou Goldberg as an educator, theorist, thinker and scholar of the highest order. In so doing it acknowledges his international stature as an eminent accounting scholar of the twentieth century.

Kenneth H SPENCER AM

(1937-2004)

CITATION READ BY

Warren McGregor

Past Member

International Accounting Standards Board

NOMINATION PREPARED BY

Kevin Stevenson

Chair and CEO

Australian Accounting Standards Board

The Australian accounting standards setting and financial reporting community has had no finer servant than the late Kenneth H Spencer AM. For more than a quarter of a century from 1978 he was actively engaged in the standard setting process both in Australia and increasingly on the international stage. In this role he was a member of the Foundation Board of Management of the Australian Accounting Research Foundation, a member of its CCA Standards Committee, a member and later chairman of the Australian Accounting Standards Board, a member of the International Accounting Standards Committee and the Australian representative and chairman of the G4+1 group of standard setters. In addition to these roles Ken Spencer was also accorded the distinction in being chosen as a Trustee of the International Accounting Standards Committee Foundation when the International Accounting Standards Board was formed. In his contribution to the technical work of standard-setting, Ken Spencer demonstrated a commitment beyond that of most practitioners to expanding our understanding of the intellectual foundations of the accounting discipline. His strong commitment to the cause of standards development and setting was underpinned by a successful career in practice and as a company director spanning four decades. In this long period of service Ken Spencer rose to the level of managing partner in the Melbourne office of KPMG. Combined with his work as a practitioner and standard setter, Ken Spencer was also able to devote considerable time and energy to the accounting profession through service with the Institute of Chartered Accountants in Australia. He served in a range of official roles at state and national level. The demands of practice are all that stood between Ken and the highest office in the ICAA, National President. In recognition of this service the Institute bestowed a Meritorious Service Award. Such is the esteem in which Ken Spencer is held by the standard setting and financial reporting community that an annual lecture sponsored by KPMG and the Financial Reporting Council and the board room at the Australian Accounting Standards Board each bear his name. The final approbation of a long and distinguished contribution to accounting came with Ken being appointed a Member of the Order of Australia in the General Division.

The Australian Accounting Hall of Fame honours Kenneth H Spencer as a practitioner, office holder and accounting standard-setter.

Kenneth T TROTMAN

Ken Trotman is a career-academic par excellence. For the greater part of his adult life he has been involved in academic pursuits at the highest intellectual levels. As a research academic Ken Trotman has built an enviable reputation in the field of audit judgment and decision making and research design. As a behavioural scientist he is without peer in Australia and ranked in the highest echelons internationally. Not surprisingly his publication record is extensive with multiple contributions in all of the leading accounting and auditing research journals. His output, which has been sustained over a period of more than thirty years has not only had a profound impact on the intellectual debates but has seen him named among the most prolific researchers of the period. He was named as the most prolific Australian author for the period 1991-2005 and in the top fifty, and highest ranked home-based Australian, internationally for the period 1959-2008. While Ken has used his academic output to further his reputation and career he has also devoted considerable time in support of young, upcoming academics presiding at numerous doctoral colloquia, sitting on many doctoral committees, supervising fourteen doctoral students together with myriad masters and honours students. As a mark of his mentorship and interest in young researchers Ken Trotman has managed to coax a significant number of theses completed under his supervision into eventual co-authored journal publications thereby facilitating early engagement with the academic community by his students. As well as authorship, Ken Trotman has held appointments to the editorial boards of leading accounting and auditing journals including *The Accounting Review*, *Accounting, Organizations and Society*, *Auditing: A Journal of Practice & Theory*, *ABACUS*, *The International Journal of Auditing and Accounting and Finance*. His papers on research methods and research design are used extensively around the world in training research students. The wider accounting profession has not escaped his view as he has given his time in the service of CPA Australia, the Institute of Chartered Accountants in Australia and the Accounting and Finance Association of Australia and New Zealand. Naturally Ken Trotman's extraordinary contribution has not gone unrecognised by his peers. The American Accounting Association conferred an Outstanding Educator Award in 2001, a Notable Contribution to the Auditing Literature Award in 2008 and a Notable Lifetime Contribution Award in Behavioural Accounting Literature in 2009. The Accounting and Finance Association of Australia and New Zealand conferred an Outstanding Contribution to the Accounting Literature Award in 1998 and Life Membership in 2002. Ken Trotman's commitment to accounting and accounting research led, in 1998, to his election as a Fellow of the Academy of Social Sciences in Australia.

The Australian Accounting Hall of Fame honours Ken Trotman as a researcher, author, mentor, and educator. In so doing it acknowledges academic leadership of the highest order.

NOMINATION PREPARED BY

Philip Brown AM

Professor

University of Western Australia

Russell Mathews saw war service in New Guinea and Bougainville rising to the rank of Captain. He was cited for bravery and bore the consequences of a serious war-time leg injury for the rest of his life. After the war, he enrolled in the University of Melbourne graduating in 1950 with a Bachelor of Commerce (Honours) and qualifying for membership of the Commonwealth Institute of Accountants. In 1953, he went to the University of Adelaide as Reader in Commercial Studies. In 1962, he wrote his acclaimed text *Accounting for Economists* which reflected his preferred emphasis on the education of economists. In 1958, he was promoted as Adelaide's first Professor of Commerce. Mathews applied for, and was appointed to, a new chair in the Australian National University in 1964. He was instrumental in 1958 in the founding of the present-day Accounting and Finance Association of Australia and New Zealand, serving as president in 1963. Mathews co-authored *Inflation and Company Finance* in 1958 which presented a statistical analysis of the accounting effects of inflation on Australian company profits and finances during the years of post-war inflation. It was said to be the first study in Australia of the impact of inflation on corporate profits and finance. In his writings, he advocated the use of valuation adjustments for stocks and fixed capital assets eschewing the application of a general price level index to historical cost data. Russell Mathews was sought after for advice on all matters to do with taxation and fiscal federalism. He served on the Committee on the Future Development of Tertiary Education in Australia (Martin Committee, 1964). In early 1970s, he chaired an Australian Government committee to study the effects of inflation on taxation. Among the recommended reforms were a stock appreciation adjustment and a depreciation valuation adjustment, both on a replacement cost basis. Mathews served as chair of the Review of the Accounting Discipline in Higher Education in 1990. The panel's report made sweeping recommendations with respect to funding, degree structure, teaching and research. During his long service on the Commonwealth Grants Commission, from 1972 to 1990, he was a firm believer in normative approaches to economic enquiry that would assist in policy analysis strongly supporting the need for social justice and full employment. He advocated Keynesian policies for macro-economic management and Galbraithian policies for public sector infrastructure. Russell Mathews wrote or edited 43 books, produced 47 official reports, and wrote in excess of 250 articles. In recognition of his contribution to university education and scholarship, Russell Mathews was elected as a Fellow of the Academy of the Social Sciences in Australia in 1959. His public service was further recognised in 1978 with appointment as Commander of the British Empire. A further approbation saw him made an Officer of the Order of Australia in 1987. On his retirement from Australian National University in 1986, he was rewarded with the title *Emeritus Professor*.

The Australian Accounting Hall of Fame honours Russell Mathews as an innovator, educator, administrator, consultant, scholar and thinker of the highest order.

Geoff Burrows

Associate Professor
The University of Melbourne

NOMINATION PREPARED BY

Geoff Burrows

Associate Professor
The University of Melbourne

Edwin Van-der-Vord Nixon was admitted to membership of the British Society of Accountants and Auditors in 1901. By 1919, having successfully established his city practice he joined the General Council of the Australasian Corporation of Public Accountants. He was then instrumental in efforts to obtain the Royal Charter prior to the formation, in 1929 of the Institute of Chartered Accountants in Australia. Nixon's workload included not only management of his busy city practice but also part-time lecturing in the University of Melbourne where he contributed to the development of the curricula and regulations for the new Faculty of Commerce. Nixon's record of publication shows he was a prolific author over topics ranging from accounting history, holding companies and budgetary control. His most enduring contribution was a set of articles on professional ethics in 1931-32, which was published in booklet form as *The Ethics of the Accountancy Profession*. Nixon provided expertise on a number of commissions of enquiry serving on the Royal Commission on Taxation 1932-34, the Royal Commission on the Monetary and Banking System 1935-37, and three public enquiries in 1938 examining the film industry, the granting of small loans and aspects of taxation. He also made a major contribution to the war effort of 1939-45 serving as Chairman of the Accountancy Advisory Panel in the Department of Supply and Development, 1939-40; Member of the Board of Business Administration, Department of Defence Co-ordination, 1940; and Member of the Aircraft Advisory Committee, Department of Aircraft Production, 1941. His major contribution, however, was as Director of Finance in the Department of Munitions from 1940 to 1945 when he supported the Director-General of Munitions in the design, codification and monitoring of procurement contracts entered into by the Department with private contractors who supplemented the output of Government Ordinance Factories. Nixon also held high office within professional bodies serving on the General Council of the Australasian Corporation of Public Accountants and later the Institute of Chartered Accountants in Australia. As an accounting practitioner, he was principal of the eponymous firm which he founded, Edwin V. Nixon & Partners, from the firm's inception in 1912 until his death in 1955. Under his leadership, the firm grew into one of Australia's leading accounting firms becoming in 1957 the Australian arm of the international firm, Arthur Young & Company, predecessor to the present-day Ernst & Young. Shy and reserved in manner, Nixon displayed a prodigious capacity for well-directed work. As a man of considerable achievements, due recognition inevitably came his way. Among many others, he was appointed a Companion of the Order of St Michael and St George in 1935 and subsequently made a Knight Bachelor in 1951.

The Australian Accounting Hall of Fame honours Sir Edwin Nixon as a pioneer, practitioner, administrator, author, educator and leader of the accounting profession. In so doing it recognises his extraordinary contribution to the advancement of Australian accounting over more than half a century.

Murray C WELLS

2012

CITATION READ BY

Graeme Dean

Honorary Professor
The University of Sydney

NOMINATION PREPARED BY

John Roberts

Professor
The University of Sydney

Murray Wells completed his Bachelor of Commerce and Master of Commerce degrees at the University of Canterbury before joining the University of Sydney in 1967. He completed his PhD under R.J. Chambers and was appointed, in 1973 to a Chair in Accounting, a position he held until his retirement in 1997. He also served as Dean of the Faculty of Economics and was the Foundation Director of the Graduate School of Business in the University of Sydney. Murray Wells has published in many of the world's top accounting journals, Australia's leading economics journal and a number of professional journals. His doctoral thesis was published under the title *Accounting for Common Costs* and earned the Hourglass Award from the Academy of Accounting Historians for the best book on accounting history published in 1978. His publications address a number of themes which draw on a deep understanding of history. In his writings, Wells drew attention to the lack of reliability and usefulness of allocated overhead costs and played a significant role in a major paradigm shift in the way accountants deal with overhead costs moving from treating allocated costs as if they are facts to concluding that they are arbitrary. He was the first to draw on history and the experiences of engineers and focus on activities as the basis for cost attribution. Murray's 1978 *Bibliography of Cost Accounting to 1914*, which is a major collection of quotable quotes from the cost accounting literature, includes contributions from engineers, economists and manufacturers. He also embraced the Kuhnian notion of revolutions to explain significant shifts in scientific thought. His subsequent paper *A Revolution in Accounting Thought?* was the lead article in the July 1976 issue of *The Accounting Review* and has been used to explain the shift in thinking about the values placed on assets in financial reports. Under Murray Wells' twenty-year editorship, the journal *Abacus* remained Australia's leading internationally recognised academic accounting journal. Murray Wells has also played a key role in many national and international organisations. He was closely involved in the formation of the International Section of the American Accounting Association and was Pacific Area Co-ordinator from 1988 to 1994. He was a Founding Trustee of the Academy of Accounting Historians and convened the Third International Conference on Accounting History in Sydney in 1988. Perhaps Murray's most important contribution has been in the development of the International Association for Accounting Education and Research. On his suggestion the IAAER became a federation of national academic bodies and established itself as a counterpart to the International Federation of Accountants. Murray also served as senior office holder of CPA Australia. In recognition of his outstanding contribution to the accounting discipline, he was elected a Fellow of the Academy of the Social Sciences in Australia in 1984. On his retirement from the University of Sydney in 1997 he was rewarded with the title *Emeritus Professor*.

The Australian Accounting Hall of Fame recognises Murray Wells as an innovator, educator, administrator, scholar and thinker of the highest order.

Allan D BARTON AM

(1933 - 2012)

CITATION READ BY

Neil Fargher

Professor

The Australian National University

NOMINATION PREPARED BY

Juliana Ng

Professor

The Australian National University

Allan Douglas Barton completed a double first class honours degree in economics and accounting at the University of Melbourne. A scholarship enabled him to pursue doctoral studies at the University of Cambridge where he formulated his view of accounting as an economic measuring system that influenced his academic writing throughout his long career. At the same time he acquired a bias towards Keynesian thought regarding the nature and roles of government. Returning to Australia he held senior academic and administrative positions at the University of Adelaide, Macquarie University and the Australian National University. During the 1970s Allan contributed extensively to the fierce debate regarding current cost accounting and the impacts of inflation on business operations. His article titled *Expectations and Achievements in Income Theory*, published in *The Accounting Review* in 1974 was subsequently reprinted and included as compulsory reading in many accounting theory programs at that time. Allan Barton is also well remembered for his landmark textbook *The Anatomy of Accounting*, published in 1975, which represented a major departure from the traditional approach to teaching accounting as rule-based bookkeeping. As a member of the Australian Accounting Research Foundation Research Committee and principal contractor, Allan Barton played a key role in the development of the Conceptual Framework for financial reporting, an item still on the agenda of the world's standard setting bodies. Allan Barton's academic output was prolific and maintained throughout a challenging and diverse career. His influence on the thinking of successive generations of public administrators, policymakers, academics and accountants, while less directly visible, has been equally substantial. Allan Barton excelled in his contribution to accounting education in Australia. He helped to build the foundations of the discipline in Australia and internationally. He has contributed as a true scholar to the practice of accounting and financial management, particularly in the public sector, and has influenced the lives of thousands of students in accounting. Service to the profession did not escape his attention. Allan held high office in both CPA Australia and the Accounting and Finance Association of Australia and New Zealand (AFAANZ). Due recognition came Allan Barton's way as a consequence of the commitments made over such a long period of time. He was awarded Life Membership as a Fellow of CPA Australia and Life Membership of AFAANZ. On his retirement from the Australian National University Allan Barton was given the title of *Emeritus Professor*. He was also appointed an Honorary Professor at the University of Sydney. His scholarly contribution over a very long period was also recognised with his election as a Fellow of the Academy of the Social Sciences in Australia in 2007. For significant service to accounting and economics Allan Barton was made, posthumously, a Member of the Order of Australia in the General Division in February 2012.

The Australian Accounting Hall of Fame honours Allan Douglas Barton as an educator, administrator, author and scholar of the highest order.

Kevin M STEVENSON AM

2013

CITATION READ BY Graeme Macmillan

Principal
International Accounting & Auditing Institute

NOMINATION PREPARED BY Graeme Macmillan

Principal
International Accounting & Auditing Institute

The extensive developments in accounting standard setting over the last forty years are due, in no small part to the career-long involvement of Kevin Michael Stevenson. As an acknowledged leading authority in the global development of accounting standards Kevin Stevenson has been at the forefront of the evolution of accounting thought for much of his working life. Kevin initially joined the firm of Fell and Starkey (later Ernst & Young) before moving to the Australian Accounting Research Foundation (AARF) as an accounting research assistant responsible for the development of accounting and auditing standards on behalf of the Australian accounting bodies. He subsequently held the position of Technical Director and finally Director. In his ten years of service he oversaw major expansion both in the size and output of the AARF. He left the Foundation in 1989 with a reputation as an internationally recognised research and development organisation. Kevin re-entered professional practice as a partner with Coopers & Lybrand in 1989 and later established a successful boutique consultancy practice, Stevenson McGregor, in 1999. He returned to standard setting in 2001 as the inaugural Director of Technical Activities for the International Accounting Standards Board in London. In this position he contributed immensely to the development of International Financial Reporting Standards (IFRSs) and was first chair of the International Financial Reporting Interpretations Committee. After returning to Melbourne as a senior partner in the Global Capital Markets Group with PricewaterhouseCoopers, he was appointed, in 2009, to the Australian Accounting Standards Board (AASB). As the Chair and Chief Executive Officer of the AASB, Kevin Stevenson provides high profile leadership for the Australian and international accounting profession using his encyclopaedic knowledge of, and experience in, the accounting standards setting process combined with a commitment to achieving financial truth in the public interest. He has also directed special attention to developing the authority and competency of the regional Asian-Oceanian Standard-Setters Group. The great improvements in financial reporting in Australia can be directly attributed to the research undertaken by the AARF and AASB staff that he recruited, encouraged and mentored. Among the notable achievements has been the valuable work undertaken for current cost accounting, the development of the conceptual framework and the production of many discussion papers, exposure drafts and standards using a transparent and public due process. The outcomes of Kevin's influence have been tangible. Australia currently has a reporting regime that uses the single set of standards across all sectors – the sector neutral approach. This means all Australian governments now produce financial statements in conformity with the IFRSs. Corporate reporting has similarly also improved immeasurably under the contemporary IFRS-based financial accounting reporting regime. The chief qualities displayed by Kevin Stevenson throughout his career have been a clarity and independence of thought and an insistence on conceptual consistency when approaching technical issues.

The Australian Accounting Hall of Fame honours Kevin Michael Stevenson as an administrator, mentor and standard-setter. In so doing it recognises his immense contribution to standard-setting and acknowledges his international stature in this field.

Kim Langfield-Smith

Professor

Monash University

NOMINATION PREPARED BY

Kim Langfield-Smith

Professor

Monash University

Robert H CHENHALL

Robert Chenhall is internationally renowned for his significant and sustained contribution over forty years to the discipline of management accounting and his outstanding research record has significantly advanced the understanding of the discipline. Robert's academic career was founded on an Economics degree from Monash University, a Masters degree from the University of Southampton and doctoral studies at Macquarie University. Professorial positions at La Trobe and Monash followed and were complemented by visiting appointments at leading academic institutions in Europe and the US. Robert Chenhall's research agenda has been driven by a willingness to innovate and embrace new ideas and methodologies in the pursuit of academic excellence. He pioneered the use of contingency theory with work focusing on examining how practices such as performance measurement systems and activity-based costing assist organisations in gaining strategic advantage and improved performance. This involved considering how management accounting is implicated in managing various aspects of the value chain such as outsourcing, supply chains, production processes and customer relationships. The implications for the design of management accounting for contemporary issues in management such as team-based structures, trust and organisational learning were also explored. More recently he pioneered research in the area of management control systems in non-government organisations, specifically linking social capital and management control systems, and examining the role of management control systems in developing compromises within organisations. The quality and standing of Robert Chenhall's work is best characterised by its impact on the overall advancement of the discipline. His work is almost always published in the leading scholarly journals and is widely cited by other scholars. Several key publications have each been cited on more than one hundred occasions. He has been regularly ranked amongst the top ten management accounting researchers internationally over the last two decades and is the world's leading researcher using survey and field study methods. This level of recognition has also brought with it multiple invitations to serve on the editorial boards of several of the top tier journals. Robert has also been heavily involved in the training and supervision of doctoral students along with participation in leading doctoral seminars in Europe and Australia. Service to the profession has not been ignored as he served on the Research Committee of CPA Australia for many years. In 2009 he received the Outstanding Contribution to Research Award of the Accounting and Finance Association of Australian and New Zealand. In 2011 he received a Lifetime Contribution award to Management Accounting Research by the American Accounting Association. On retirement from Monash University Robert Chenhall was bestowed with the title *Emeritus Professor*.

The Australian Accounting Hall of Fame honours Robert Chenhall as an innovative researcher and thinker of the highest order. In doing so it recognises his extraordinary impact on the discipline of management accounting.

W John KENLEY

(1924 - 2012)

2014

CITATION READ BY

Jon Aloni

General Manager Victoria
CPA Australia

NOMINATION PREPARED BY

Jon Aloni

General Manager Victoria
CPA Australia

John Kenley's contribution to accounting came mainly through technical posts held initially as Technical Officer with the Australian Society of Accountants and subsequently as Director of the Australian Accounting Research Foundation. John's involvement with the Foundation, which dated from its establishment meant he was arguably Australia's first accounting standard setter. As such he was a pioneer and the first of a long and distinguished list of individuals who have made a sustained contribution to standard setting both in Australia and internationally. Work in standard setting and a period of public service that preceded it were founded on strong academic credentials from The University of Melbourne earned in the aftermath of war-time service in far north Queensland. He later added a PhD from a North American university, a strategy adopted by many of his contemporaries. During his time at the Foundation John Kenley sought, through his writings and dissemination of ideas, to advance the interests of the profession following the disastrous corporate failures of the early to mid-1960s which had not only implicated accounting and auditing in the failures but also had highlighted deficiencies regarding the state of accounting principles in Australia. In 1968 he authored *Accounting Research Study No 1: "A Statement of Australian Accounting Principles"* (1970). Adapted from an earlier US work to reflect Australia's institutional framework and existing financial-reporting recommendations, it was much lauded and became an important reference for the development of a conceptual framework underlying future Australian accounting standards. Another critical part of Dr Kenley's work for the Foundation involved detailed research into existing Australian and overseas auditing practice. This resulted in a number of comprehensive submissions concerning the then proposed joint issue by the accounting bodies of a codified statement on auditing standards. Such was the influence of his work within the audit discipline that it led to the joint publication of a comprehensively revised "*Statement of Auditing Standards*" (AUS1) which was the precursor to the present-day Auditing Standards. John Kenley's pioneering work at the Foundation was followed by a move to KMG Hungerfords (now KPMG) where he was ultimately National Technical Partner. In this role he remained involved with the Foundation and was instrumental in establishing the Auditing Standards Board serving a term on the board. He also became a recognised authority on the administrative, accounting and auditing provisions of the new Commonwealth corporations legislation and was keenly sought as a presenter at many ASA and ICAA Congresses and seminars. Throughout his varied working life John Kenley continued to write and publish in the professional literature demonstrating his deep understanding of complex technical matters associated with accounting standards. He was the recipient of a Churchill Fellowship and received an Award for Meritorious Service from the NSW Division of the ASA.

The Australian Accounting Hall of Fame recognises John Kenley as an accounting standard setting pioneer acutely attuned to the standard setting process and possessed of a unique ability to interpret and explain complex technical matters associated with them.

NOMINATION PREPARED BY

Bob Nicol

Professor Emeritus

The University of Melbourne

F Kenneth WRIGHT

Ken Wright arrived in Melbourne with his mother as a refugee from Vienna in 1939 at the tender age of fourteen. Matriculating into the University of Melbourne in 1942 he commenced studies in Metallurgical Engineering but quickly supplemented them with noncognate studies in Commerce. Degrees in both disciplines were earned each of which underpinned his long working life. Employment as a metallurgist, management consultant and works accountant preceded his academic career which started at the University of Adelaide in 1962 where he held various senior posts as head of department and dean of faculty. Ken Wright moved, in 1977, to The University of Melbourne when he was the inaugural appointment to the newly established Fitzgerald Chair in Accounting. Visiting professorships included the universities of Vienna, Lancaster and Miami. In 1986 Ken was rewarded with the first earned Doctor of Commerce in The University of Melbourne for a collection of seventeen works on the general theme of Asset Values and Enterprise Income. Throughout his time in academia, Ken Wright was a steady contributor to intellectual debate. As an accounting theorist, he was one of a handful of Australians in the 1960s and early 1970s who caused the international community to sit up and take notice of Australian accounting academics. Along with distinguished contemporaries he published extensively through what is now seen as something of a "golden age" of Australian accounting literature. A small group of Australians authored a disproportionately high page-count in the world's leading accounting journals due in no small measure to their grounding in economics. Ken Wright's contribution to this effort was outstanding. His publication record in top tier journals ranks amongst the best achieved with five articles in the *Journal of Accounting Research*, four in *The Accounting Review* and three in the *Journal of Business, Finance and Accounting*. His publication list extends beyond eighty items. Ken gained an international reputation for his work in the areas of depreciation, capital investment, financial management and the bases of valuation of assets. Much of this work had implications for the management of public sector enterprises as well as private sector commercial activities. Consulting advice was sought by the Queensland Cane Growers Council and the Victorian Government. His outstanding contribution to the advancement of accounting was rewarded in 1977 when he was elected as a Fellow of the Academy of the Social Sciences in Australia. He is also a Life Fellow of CPA Australia and on retirement from The University of Melbourne was awarded the title *Professor Emeritus*.

The Australian Accounting Hall of Fame recognises Kenneth Wright as a theorist and scholar of the highest order.
